Regarding the Physical Inspection of Fixed Assets as of the End of March 2026

As communicated in Accounting Department Notification No. 1 of the 26th Term, "For Year-End Closing of the Fiscal Year Ending March 2026," in preparation for the year-end closing, it is required to thoroughly conduct self-checks to ensure that financial reporting is conducted in accordance with our Group's accounting policies at each company, including AW headquarters, to ensure the reliability of financial reports. Accordingly, as part of the self-check process, we request that each company conduct a physical inspection of tangible fixed assets as of the end of March 2026. Additionally, for certain companies where the balance of tangible fixed assets is significant (as separately communicated), inspections will be conducted in the presence of independent observers (management departments of each company and external experts).

At the same time, to share information regarding the procedures to be followed during the physical inspection of fixed assets, explanatory materials concerning the physical inspection of fixed assets will be distributed. We ask that each company understands the purpose of this action and responds sincerely.

Details

1. Companies subject to the physical inspection of fixed assets based on the balance at the end of March 2026:

AIR WATER INC. and all consolidated subsidiaries

*Affiliated companies accounted for by the equity method and non-equity method affiliated companies are excluded from this inspection.

2. Conducting the physical inspection of fixed assets

Schedule: On a date and time set by each company by Friday, April 24, 2026

Target assets: All tangible fixed assets (including leased assets recorded as tangible fixed assets)

※At certain locations of specific companies, our accounting auditor, will conduct an on-site audit in May (schedule pending contact from our accounting auditor). Each of the targeted companies has been separately informed that they are subject to this audit.

※Prior to the on-site audit by our accounting auditor, as part of a self-inspection, an on-site audit will be conducted in April at certain locations of specific companies under the supervision of an independent observer (company management departments or external experts). Each of the targeted companies has been separately informed that they are subject to this audit. (Schedule is being coordinated)

3. Attached materials

- Explanatory Material for the Physical Inspection of Fixed Assets_March 2026
- Fixed Assets Physical Inspection Checklist
- English versions of both of the above documents
